John –

Stewart is participating in out-of-town discussions, so he asked me to let you know that he will try to call you later today or tomorrow at 8 am. It's hard for him to step out of the meeting. It looks like you are out of town yourself. Is there a telephone number you would like him to call you on?

Steward

I'd like to talk with you more about Exide. I will be reachable while I am out of town – if you have 10 min or so tomorrow or Wed. – let me know.

Thanks

John Lyons
